## ENVIRONMENTAL POLICY STATEMENT

Construction sector is one of the highest greenhouse gas emitters and has enormous environmental impact. As an architectural firm we have substantial accountability for environmental improvement. As Köken Design Studio we commit to

- Minimize waste and utilize recycled and reused materials at the office.
- Minimize paper use and office stationery. (We have already reduced paper usage %98 except for official project deliveries)
- Maximize efficient use of resources at our office and in our projects as well.
- Enhance sustainable practices for our clients' projects and actively search for construction techniques w/less carbon footprint.
- Search for applications of recycled and reused materials in our projects.
- Actively promote energy efficiency and renewable energy practices in our projects.
- Advance continuously by implementing and maintaining an Environmental Management System.
- Comply with all applicable legislations, regulations and codes of practices.
- Educate and engage employees on our environmental program and empower them to contribute and participate.

This statement shall be reviewed annually and be publicly available on company website [www.kokendesign.com](http://www.kokendesign.com).
